- 19 Cleverstore 2.0 – Free app store
- 20 Snowflake lessons online

INAVATION AWARDS  
TECHNOLOGY WINNER 2018

Create. Collaborate. Inspire.

## Why Clevertouch?

### 1 Multi award winning touchscreen manufacturer

The only touchscreen manufacturer to have won top industry recognised accolades.

#### 2018

InAVation Awards (EMEA audio visual event) – Pro Series wins Collaboration product of the Year over finalists including Google Jamboard, Cisco Spark Board and MicroSoft Surface Hub. This category was voted for by the industry and end users. ([www.inavationawards.com](http://www.inavationawards.com)).

AV News Awards - Plus Series collects Presentation Innovation of the Year over finalists including Promethean, SMART, Avocor and Prowise.

AV Awards (largest global audio visual event judged by end users – [www.avawards.com](http://www.avawards.com)).

#### 2017

Plus Series wins Interactive Screen of the Year over these finalists Jamboard, Surface Hub, Prowise and Avocor).

#### 2016

V Series wins Interactive Screen of the Year.

#### 2015

Clevertouch wins Manufacturer of the Year over Crestron, Samsung and Kramer to name but a few of the finalists (voted for by end users and the industry).

No other touchscreen manufacturer has won three or even any AV Award, InAVation or AV News Award.

### 2 First to market with touchscreen tech in 2009

First shown in 2009, Clevertouch is a trusted supplier and number one touchscreen provider with 25% market share.

### 3 Ranges to suit all vertical sectors

We don't believe that one screen suits all market sectors. Our ranges are designed for maximum impact, user adoption and a price to suit all budgets – Pro Series (for Enterprise and HE/FE), Plus Series (Education) and V Series (Education or Enterprise).

### 4 Remote management using our MDM system

The ability to remotely manage all your screens from your IT helpdesk or a single computer. Run diagnostics, shutdown, wipe and adjust settings without going to each screen.

### 5 Works independently from the network and you can create your own hot spot

With security issues on the rise, your Clevertouch has the ability to sit off the network and create its own hot spot for your guests and staff.

### 6 Open platform to support all BYOD

It's crucial to offer colleagues and guests the ability to share and receive content. Using your Clevertouch, connect any device to your screen knowing that your screen is sat off the network.

### 7 Clevershare 2.0

Share content of up to four devices to the screen simultaneously using Clevershare App or a combination with our Clevershare dongle. With touch capabilities in both directions, all the content can be shared back to a maximum of 32 devices.

Create. Collaborate. Inspire.

# CLEVERTOUCH

## 8 Collaborate in and out of room and share content over video calls using Mosaic

Standardise every meeting room with Clevertouch for an easy to use complete in and out of room collaboration experience. Using Mosaic software (included with all Pro Series), you can make video calls, share and annotate over content in multiple locations.

## 9 Never miss the latest edition of Clevertouch with Over-the-Air updates

Never miss the latest version of Clevertouch with our free to access firmware updates.

## 10 Dual platform for Windows or Android use

You decide how to use your Clevertouch with a simple one touch process to switch you between PC or Android. Your Clevertouch will run in your desired mode and you have the ability to lock down and switch off either modes.

## 11 Clever Message – Send messages to all or individual screens

From your IT Helpdesk or any PC computer, send a message to all your screens or an individual screen. Send emergency messages, greetings or a reminder of the booked meeting times.

## 12 Smart Personalised Account Profile – NFC

Using our NFC system – walk up to any Clevertouch screen in your portfolio and instantly access your settings and content. Once finished, the screen will shut down and wipe the settings ready for the next user.

## 13 Enhanced stylus capabilities

Clevertouch comes with enhanced stylus capabilities so you can assign two colours on our High Precision Touch stylus.

## 14 Lock settings and monitor your screens to enhance security

Make your Clevertouch screen/s part of your business, lock settings to suit your business or education establishments needs to enhance security.

## 15 Super Glide Surface

Our new super smooth glass is now available on all our new Plus and Pro Series generations giving the same great anti-glare and toughen glass experience.

## 16 Software is free for the life of the screen

Everything is included in the price of your Clevertouch. No subscription fees or hidden costs. Software will always be free for the life of the screen.

## 17 LUX interface

Inspired by users of Clevertouch, LUX gives you a seamless and easy to use familiar interface on every screen for increase of user adoption.

## 18 Lynx 5.0

No need to recreate files, simply convert them using our LYNX 5.0 software.

## 19 Cleverstore 2.0 – Free app store

Plus Series has exclusive free access to Cleverstore, containing hundreds of apps to meet your classroom's needs. Filter by age, subject and language to engage your students in immersive learning.

## 20 Snowflake lessons online

Join the online community sharing content, lesson plans and download materials to help support your everyday working. With the Lessons Online App, you can create lessons using your Clevertouch, PC, Chromebook, or MAC from anywhere in the world.
